Subject: TCSA Declaration

The Toxic Substances Control Act (TCSA) amended by the Frank R. Lautenberg Chemical Safety for the 21st Century Act, provides for the evaluation and assessment of certain chemicals and substances known to the EPA to pose possible health risks to the public.

Specifically, the TCSA restricts the sale and distribution of a specific list of substances under Sections 5, 6, and 7 (the Substances).

Valworx is in the business of selling actuated valves and associated accessories (the Products). As such, Valworx does not import, produce, manufacture, distribute or sell any chemical substance, and, further, based on knowledge and belief, none of the Products contain any of the Substances above the defined threshold.

Valworx therefore declares under its own authority that the Products are not subject to TSCA.

A handwritten signature in black ink, appearing to be "Kurt Naas", written over a horizontal line.
